About myself

Creative and detail-oriented Junior Frontend Developer with a passion for crafting responsive, user-friendly web applications. Successfully developed dynamic projects using React, TypeScript and Sass ensuring seamless design implementation and performance. Motivated by problem-solving and delivering exceptional user experiences, I excel in building clean, maintainable code. Skilled in modern Javascript frameworks API integration and responsive design techniques. I focus on improving user experience and making web applications efficient and intuitive. I'm always eager to learn new technologies to achieve excellence in every project. I have strong skills in optimizing code, debugging and collaborating effectively. I thrive in a team environment and enjoy finding innovative solutions always ready to take on new challenges and achieve greater goals.
